ADA, OKLAHOMA, TUESDAY EVENING, OCTOBER 13, 1908

NUMBER 167

SCHOOL LAND BILL.

Said to Be Unconstitutional By Able
Attorneys.

Guthrie, Ok., Oct. 12.—That the initiated school land bill, to be voted upon on Nov. 3, and providing for the sale of the school lands under rules and regulations incorporated in

the bill, is in direct violation of the enabling act, also of the state constitution, is the contention now being made by several attorneys, and they cite a decision of the Nebraska supreme court in support of their declaration.

It is shown that the enabling act, and likewise the state constitution, in conformity with the enabling act, provides that the school lands, if sold, shall be sold under rules and regulations prescribed by the legislature. This is shown in Sec. 4, Art. 11, of the constitution, as follows:

"All public lands set apart to the state by congress for charitable, penal, educational and public building purposes, and all lands taken in lieu thereof, may be sold by the state, under such rules and regulations as the legislature may prescribe in conformity with the regulations of the enabling act."

It is held therefore, that the rules and regulations provided in the initiated school land bill for the sale of the lands are of no weight or legality whatever, even though the bill is approved by a vote of the people, because they are in direct violation of the enabling act, which says specifically that the rules governing the sale of the lands must be prescribed by the legislature. The claim is made, therefore, that if the people approve the initiated bill by giving it a majority of all the votes cast in Oklahoma at the general election on Nov. 3, it will have no further weight than that the people approve the land's sale and that the legislature which convenes in January must prescribe the rules and regulations under which the sale is made.

Revival Services.

Remember the evangelistic services by Dr. Smith at the Presbyterian church are still growing in interest. Dr. Smith preached a splendid sermon last evening on "Christ the Magnet." Be sure and hear him this evening at 7:30 at the church and at the Desota tomorrow afternoon at 2:30 and again at the church at 7:30 p. m.

THE FURNITURE FACTORY

Leading Business Men Confer With
Northern Factory Pro-
motors.

About fifty business men met Messrs. Johnson and Christenson of Grand Rapids, Mich., at the club rooms last evening. These gentlemen talked frankly concerning their proposed enterprise, and made a proposition to build a furniture factory incorporated for \$600,000.00, 25 per cent paid up, and guarantee its completion within eighteen months. The city to deed the concern 200 acres of land adjoining the town* to be used for the factory building site, and resident lots, and take \$80,000 stock on the bases mentioned above, which is equivalent to \$20,000. Upon

motion the president appointed the executive committee of the 25000 club to meet the promoters this morning and take up the matter more fully.

This morning members of the committee, accompanied the gentlemen to the plot of land lying west of the cement plant, and submitted same for their consideration, and it is rumored that this satisfies them. The committee has an engagement for another meeting this afternoon which cannot be reported in this issue, therefore a definite decision cannot be reported in this issue of the News.

ROOSEVELT'S GUESS.

The President Is Optimistic As to
Out Come.

Washington, Oct. 12.—Just stick a pin right here and see how things come out election night. President Roosevelt believes that Taft and Sherman will have about 306 electoral votes. He realizes that it has been a fight with a great doubt created, but he is convinced that things are going well with the republicans, and with hard work he expects to see Taft beat Bryan not quite two to one, and he expects to see Gov. Hughes re-elected.

President Roosevelt has been a pretty good judge of political events. He predicted just after the last delegates to the Chicago convention were elected that Taft would have about 700 delegates. He had 702.

The president, it is understood, claims for Taft first the States regarded as reasonably sure republican, with 138 electoral votes. Then he claims all the states classed as doubtful with republican leanings, New York, Idaho, Kansas and Wisconsin, with 65 electoral votes. He also claims Nebraska and Indiana, and, while he regards these states as close, he believes they will both cast their electoral votes for Taft.

The president, it is said, also regards Colorado and Maryland as affording a good chance to the republicans, but these states are not included in the claim he is making to his friends.

Scared in Ohio.

Cincinnati, Ohio, Oct. 12.—During the next three weeks there is to be a desperate struggle for the twenty-one electoral votes of Ohio. The significance of Mr. Taft's present tour of the state is that the republican managers have discovered Ohio is not as "safe" as they had supposed it was. They now realize that there is some little danger—no one can say just how great it is—that Taft's home state may go for Bryan. The chief trouble is with the labor vote. The present tendency of the National campaign is shifting away from its earlier status. Then the danger was supposed to be in the west. Now the belief is that the farmers are with the republican party as usual, but that a serious defection exists among the ranks of union labor and wage earners in general. This defection exists all over the country. There are reasons for believing that it is as bad here in Ohio as anywhere else, and even worse than in some states.

TO ACCOMPANY THE GOVERNOR.

Big Delegation to Attend Dallas Fair
With Haskell.

Guthrie, Ok., Oct. 12.—Plans are being made for a large delegation of Oklahoma people to accompany Gov. Haskell to Dallas, where he will make a speech at the Texas State Fair on Oct. 20. It is intended to make the trip by special train, leaving Guthrie on the morning of the 19th, and adding delegations at Oklahoma City, Pauls Valley, Purcell,

Ardmore, Sulphur, Wynnewood and Marietta. Speeches are scheduled for Gainesville and Fort Worth. Under this arrangement the party will arrive in Dallas late Monday night, spend Tuesday there and return to Oklahoma Wednesday. The train will consist of three sleepers, chair and baggage car.

The governor will be accompanied by his personal military staff, the First Regiment Band and all state officers.

Graves Leeper of Oklahoma City was here today urging completion of arrangements for the trip, which he said, would be of more than temporary value to Oklahoma.

"The governor would be talking to the mothers and fathers, sisters and brothers of thousands of Oklahoma citizens," said Mr. Leeper, "and the ex-Texans in this state could send messages of cordial greetings to the home folks through the governor."

Gov. Haskell received invitations today to make speeches at Paris, Tex., and Minden, near Shreveport, La. He telegraphed both places that definite answers could not be given until the first of next week. It may be that the tour can be extended to those places.

Miss Ewing's First Evening.

On Monday night the Airdome was comfortably filled with Ada folk who saw Miss Ewing's Company render in a very creditable manner, "In the Shadow of the Czar."

Miss Ewing carried the heavier part and demonstrated her talent in no uncertain manner. Her associates are above the average of those who frequent towns this size and those present last night demonstrated their approval by frequent and liberal applause.

The Airdome has now a top to it and delicate people, especially bald-headed men need not fear the falling dews. Manager Parks is making strenuous efforts to make this show resort comfortable and in another few hours it seems that he will have succeeded.

The Ewing company will put on, "Slaves of the Orient," a sensational comedy drama for this evening.

Council Meeting.

Council met Monday night, Oct. 12th. All members present except Hope and Hill.

A petition was presented asking for sidewalks on Renne avenue from Main to 11th. Same was granted.

WHEN you buy clothes ask for the maker's name; and find out what it stands for.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the local. Dr. Shoop's Restorative, the constitutional. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments. The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

TWO CENT FARE.
Before the admission of Oklahoma into the Union, three cents a mile was the minimum passenger fare on all railroads operating in the state. Under the Oklahoma constitution, written by 99 democrats, twelve republicans and one independent, two cents a mile is the maximum rate which any railroad is allowed to charge, unless the management can prove, to the satisfaction of the corporation commission that a higher rate is necessary in order that the road may be operated at a profit. With the exception of one or two branch lines, the two-cent fare is in force throughout the state.

What this provision alone saves to the people of Oklahoma in a single year is hard to estimate, but it will undoubtedly amount to more than all the taxes collected to support the state government for a year.

Oklahoma has a population of 1,500,000 human souls. It is fair to presume that at least one out of every three of our population rides on a railroad train at least once each year. If 500,000 Oklahomans should each travel 200 miles each year on the railroads of the state, it would represent a total mileage of 100,000,000 miles. The two-cent fare law saves the traveling public one cent on each mile traveled, so that on this low estimate, it would show a saving of \$1,000,000 in actual cash for one year.

Estimate the saving in your own case for yourself. Just remember that every time you travel ten miles, you have saved ten cents, thanks to Oklahoma democracy. Every time you travel a hundred miles, give the democratic party credit for saving you one dollar, and remember at the same time that, thanks to other rulings of a democratic corporation commission, the cars are kept cleaner and the service is better than it ever was under republican territorial rule. Remember also, that thanks to an act passed by the unanimous vote of the democrats in the first state legislature, there are separate coaches and waiting rooms provided for negroes on all railroads within the state.

That the democratic party in Oklahoma deserves all the credit for this saving cannot be denied. For eighteen years the republican party had control of affairs in Oklahoma and Indian Territory. With the exception of a single legislature they controlled every session of the law making body of Oklahoma. During the entire eighteen years they had a majority in the national congress, which made all the laws for Indian Territory. There was not a year in all that time that the republican congress could not have compelled the railroads of Indian Territory to carry passengers for two cents per miles. There was not a session of the republican legislature of Oklahoma that could not have given the people of that territory the same relief. The republican party failed utterly to even attempt such relief for eighteen years. The democratic party gave the people the two-cent fare the minute the constitution went into effect.

Talking Too Much.
Once upon a time Oklahoma had a territorial governor who had a son who talked too much. Now it appears that the United States has a president who has a son-in-law who talks too much. Either Theodore Roosevelt and his entire crowd of advisers have gone politically mad or Nick Longworth needs a bad half hour with his big-stick father-in-law out in the wilderness. In a speech the other day Nick triumphantly declared that father-in-law Teddy meant to keep the presidency of these United States permanently in the family. "We'll elect Taft for four years and then for four years more, and after that we will re-elect Theodore Roosevelt for another eight years" boastfully declared son-in-law Nock. Is Nicholas batty or has the whole presidential political family gone bug-house? It's a little too early in the history of the American republic to declare for a dynasty and arrange the succession of the presidency for a matter of sixteen years in the future. Time will prove whether Roosevelt is responsible for his son-in-law's speech. If he isn't he will have to deny responsibility. If he leaves that speech unchallenged it brands him before the American public as a man who aspires, in the year of our Lord, 1908, to subvert the principles of our American government and assume the role of dictator in the monarchy which takes its place.

The way the democrats of Oklahoma have rallied to the support of their governor when he was made the object of an unjust partisan assault by the republican president has brought consternation to the ranks of the Oklahoma republicans. Oklahoma democrats realize that the only vindication possible to give Governor Haskell is to increase the democratic majority in Oklahoma, and they are determined to do it. It isn't often that democrats get mad, but when they do something is going to pop. This is one time that the democrats of Oklahoma are up in arms in earnest and the avalanche of votes that will hit the republican-carpet-bag McGuire-Raymond-Busby corporation combination will be a lesson to the world in aggressive politics.

The republican papers have almost dropped their personal fight on Governor Haskell. Wonder if it's possible that they have finally tumbled to the fact that they were adding the democratic party so long as they kept it up?

Figure Your Own Taxes.

It isn't necessary for any taxpayer to allow any one to deceive him about what his state taxes are going to be if you will go to the county clerk's office and see what the assessed valuation of your farm or personal property is, you can tell in three minutes what your state taxes will be. The state levy is one and a fourth mill a dollar.

That means simply that for every dollar of valuation your property will have to pay one and a fourth mills toward the support of the state government. Just take the valuation in dollars and multiply by one and a fourth, then point off three decimal points. That will give you your state taxes in dollars and cents.

It must also be remembered that your state taxes will be only a small portion of the total tax you must pay but it is the only tax with which the state officers or state administration have anything to do with levying or collecting.

This levy of one and a fourth mills is made to cover all the expense of state government, and is all the money raised by taxation for that purpose. Your other tax is for the expense of your county, township and school district government, and the levy for these added taxes is made by your board of county commissioners absolutely independent of the state officials or the state tax board.

For instance, the republican speakers and republican papers are pointing out numerous instances in Noble county where they claim the taxes on certain farms will be more than doubled, and are charging it all up to "democratic extravagance." The facts of the matter are that the farm lands of Noble county will pay less money in state taxes this year than they paid last year in territorial taxes.

A farm valued at \$5,000 would pay only \$5.25 state taxes. A farm valued at \$10,000 would pay only \$10.50 state taxes.

Where does the other \$100 which these republican papers and speakers say you are going to have to pay come from? It comes from your republican board of county commissioners in Noble county. How can the democratic state officials prevent a republican board of county commissioners from collecting an enormously high county tax? The fixing of the levy for county purposes is entirely in the hands of the county board of each county, and if your taxes are higher this year than they were last year your board of county commissioners are the men whom you should look to for an explanation, and not to the democratic state administration.

The democratic state administration has exercised the utmost caution and economy in expenditures in order to keep down the burden of taxes. They have reduced the direct tax for the support of the state government to a figure lower than that assessed to pay the expenses of a territorial government. If your taxes are higher this year than last fix the responsibility where it belongs.

If women only knew the cause—that backache pains come from sick kidneys, 'twould save much needless woe. Doan's Kidney Pills cure sick kidneys. Ada people endorse this:

Mrs. S. M. Kyserm, living at 502 W. Main street, Ada, Okla., says: "Last summer I was suffering a great deal from a dull, heavy aching through my back and hips. I thought it was due to a cold settling on my kidneys, and was inclined to believe that it would soon disappear. The aching became more intense, however, and other symptoms of kidney trouble developed. I then decided to give Doan's Kidney Pills a trial, and procured a box at G. M. Ramsey's drug store. After taking a few doses the trouble began to disappear. I continued using the remedy faithfully, until my difficulties were entirely removed. I am glad to state I have had no return of kidney complaint since."

NUMBER 167

SCHOOL LAND BILL.

Said to Be Unconstitutional By Able Attorneys.

Guthrie, Ok., Oct. 12.—That the initiated school land bill, to be voted upon on Nov. 3, and providing for the sale of the school lands under rules and regulations incorporated in

the bill, is in direct violation of the enabling act, also of the state constitution, is the contention now being made by several attorneys, and they cite a decision of the Nebraska supreme court in support of their declaration.

It is shown that the enabling act, and likewise the state constitution, in conformity with the enabling act, provides that the school lands, if sold, shall be sold under rules and regulations prescribed by the legislature. This is shown in Sec. 4, Art. 11, of the constitution, as follows: "All public lands set apart to the state by congress for charitable, penal, educational and public building purposes, and all lands taken in lieu thereof, may be sold by the state, under such rules and regulations as the legislature may prescribe in conformity with the regulations of the enabling act."

It is held therefore, that the rules and regulations provided in the initiated school land bill for the sale of the lands are of no weight or legality whatever, even though the bill is approved by a vote of the people, because they are in direct violation of the enabling act, which says specifically that the rules governing the sale of the lands must be prescribed by the legislature. The claim is made, therefore, that if the people approve the initiated bill by giving it a majority of all the votes cast in Oklahoma at the general election on Nov. 3, it will have no further weight than that the people approve the land's sale and that the legislature which convenes in January must prescribe the rules and regulations under which the sale is made.

THE FURNITURE FACTORY

Leading Business Men Confer With Northern Factory Promoters.

About fifty business men met Messrs. Johnson and Christenson of Grand Rapids, Mich., at the club rooms last evening. These gentlemen talked frankly concerning their proposed enterprise, and made a proposition to build a furniture factory incorporated for \$600,000.00, 25 per cent paid up, and guarantee its completion within eighteen months. The city to deed the concern 200 acres of land adjoining the town* to be used for the factory building site, and resident lots, and take \$80,000 stock on the bases mentioned above, which is equivalent to \$20,000. Upon

motion the president appointed the executive committee of the 25000 club to meet the promoters this morning and take up the matter more fully.

This morning members of the committee, accompanied the gentlemen to the plot of land lying west of the cement plant, and submitted same for their consideration, and it is rumored that this satisfies them. The committee has an engagement for another meeting this afternoon which cannot be reported in this issue, therefore a definite decision cannot be reported in this issue of the News.

ROOSEVELT'S GUESS.

The President Is Optimistic As to Out Come.

Washington, Oct. 12.—Just stick a pin right here and see how things come out election night. President Roosevelt believes that Taft and Sherman will have about 306 electoral votes. He realizes that it has been a fight with a great doubt created, but he is convinced that things are going well with the republicans, and with hard work he expects to see Taft beat Bryan not quite two to one, and he expects to see Gov. Hughes re-elected. President Roosevelt has been a pretty good judge of political events. He predicted just after the last delegates to the Chicago convention were elected that Taft would have about 700 delegates. He had 702.

The president, it is understood, claims for Taft first the States regarded as reasonably sure republican, with 133 electoral votes. Then he claims all the states classed as doubtful with republican leanings, New York, Idaho, Kansas and Wisconsin, with 65 electoral votes. He also claims Nebraska and Indiana, and, while he regards these states as close, he believes they will both cast their electoral votes for Taft.

The president, it is said, also regards Colorado and Maryland as affording a good chance to the republicans, but these states are not included in the claim he is making to his friends.

Scared in Ohio.

Cincinnati, Ohio, Oct. 12.—During the next three weeks there is to be a desperate struggle for the twenty-one electoral votes of Ohio. The significance of Mr. Taft's present tour of the state is that the republican managers have discovered Ohio is not as "safe" as they had supposed it was. They now realize that there is some little danger—no one can say just how great it is—that Taft's home state may go for Bryan. The chief trouble is with the labor vote. The present tendency of the National campaign is shifting away from its earlier state. Then the danger was supposed to be in the west. Now the danger is that the farmers are with the republican party as usual, but that a serious defection exists among the ranks of union labor and wage earners in general. This defection exists all over the country. There are reasons for believing that it is as bad here in Ohio as anywhere else, and even worse than in some states.

TO ACCOMPANY THE GOVERNOR.

Big Delegation to Attend Dallas Fair With Haskell.

Guthrie, Ok., Oct. 12.—Plans are being made for a large delegation of Oklahoma people to accompany Gov. Haskell to Dallas, where he will make a speech at the Texas State Fair on Oct. 20. It is intended to make the trip by special train, leaving Guthrie on the morning of the 19th, and adding delegations at Oklahoma City, Pauls Valley, Council,

Ardmore, Sulphur, Wynnewood and Marietta. Speeches are scheduled for Gainesville and Fort Worth. Under this arrangement the party will arrive in Dallas late Monday night, spend Tuesday there and return to Oklahoma Wednesday. The train will consist of three sleepers, chair and baggage car.

The governor will be accompanied by his personal military staff, the First Regiment Band and all state officers.

Graves Leeper of Oklahoma City was here today urging completion of arrangements for the trip, which he said, would be of more than temporary value to Oklahoma.

"The governor would be talking to the mothers and fathers, sisters and brothers of thousands of Oklahoma citizens," said Mr. Leeper, "and the ex-Texas in this state could send messages of cordial greetings to the home folks through the governor."

Gov. Haskell received invitations today to make speeches at Paris, Tex., and Minden, near Shreveport, La. He telegraphed both places that definite answers could not be given until the first of next week. It may be that the tour can be extended to those places.

Miss Ewing's First Evening.

On Monday night the Airdome was comfortably filled with Ada folk, who saw Miss Ewing's Company render in a very creditable manner, "In the Shadow of the Czar."

Miss Ewing carried the heavier part and demonstrated her talent in no uncertain manner. Her associates are above the average of those who frequent towns this size and those present last night demonstrated their approval by frequent and liberal applause.

The Airdome has now a ton to it and delicate people, especially bald-headed men need not fear the falling dew. Manager Parks is making strenuous efforts to make this show resort comfortable and in another few hours it seems that he will have succeeded.

The Ewing company will put on, "Slaves of the Orient," a sensational comedy drama for this evening. The News invites you to observe their act in the daily issues.

Council Meeting.

Council met Monday night, Oct. 12th. All members present except Hope and Hill.

A petition was presented asking for side walks on Main avenue from Main to 11th. Same was granted.

TWO CENT FARE.
Before the admission of Oklahoma into the Union, three cents a mile was the minimum passenger fare on all railroads operating in the state.

Under the Oklahoma constitution, written by 99 democrats, twelve republicans and one independent, two cents a mile is the maximum rate which any railroad is allowed to charge, unless the management can prove, to the satisfaction of the corporation commission that a higher rate is necessary in order that the road may be operated at a profit.

With the exception of one or two branch lines, the two-cent fare is in force throughout the state.

What this provision alone saves to the people of Oklahoma in a single year is hard to estimate, but it will undoubtedly amount to more than all the taxes collected to support the state government for a year.

Oklahoma has a population of 1,500,000 human souls. It is fair to presume that at least one out of every three of our population rides on a railroad train at least once each year. If 500,000 Oklahomans should each travel 200 miles each year on the railroads of the state, it would represent a total mileage of 100,000,000 miles. The two-cent fare law saves the traveling public one cent on each mile traveled, so that on this low estimate, it would show a saving of \$1,000,000 in actual cash for one year.

Estimate the saving in your own case for yourself. Just remember that every time you travel ten miles, you have saved ten cents, thanks to Oklahoma democracy. Every time you travel a hundred miles, give the democratic party credit for saving you one dollar, and remember at the same time that, thanks to other rulings of a democratic corporation commission, the cars are kept cleaner and the service is better than it ever was under republican territorial rule.

Remember also, that, thanks to an act passed by the unanimous vote of the democrats in the first state legislature, there are separate coaches and waiting rooms provided for negroes on all railroads within the state.

That the democratic party in Oklahoma deserves all the credit for this saving cannot be denied. For eighteen years the republican party had control of affairs in Oklahoma and Indian Territory. With the exception of a single legislature they controlled every session of the law making body of Oklahoma. During the entire eighteen years they had a majority in the national congress which made all the laws for Indian Territory. There was not a year in all that time that the republican congress could not have compelled the railroads of Indian Territory to carry passengers for two cents per mile. There was not a session of the republican legislature of Oklahoma that could not have given the people of that territory the same relief. The republican party failed utterly to even attempt such relief for eighteen years. The democratic party gave the people the two-cent fare the minute the constitution went into effect.

Talking Too Much.
Once upon a time Oklahoma had a territorial governor who had a son who talked too much. Now it appears that the United States has a president who has a son-in-law who talks too much. Either Theodore Roosevelt and his entire crowd of advisers have gone politically mad or Nick Longworth needs a bad half hour with his big-stick father-in-law out in the woods. In a speech the other day Nick triumphantly declared that father-in-law Teddy meant to keep the presidency of these United States permanently in the family. "We'll elect Taft for four years and then for four years more, and after that we will re-elect Theodore Roosevelt for another eight years" boasting declared son-in-law Nock. Is Nicholas batty or has the whole presidential political family gone batty? It's a little too early in the history of the American republic to declare for a dynasty and arrange the succession of the presidency for a matter of sixteen years in the future. Time will prove whether Roosevelt is responsible for his son-in-law's speech. If he isn't he will have to deny responsibility. If he leaves that speech unchallenged it brands him before the American public as a man who aspires, in the year of our Lord, 1908, to subvert the principles of our American government and assume the role of dictator in the monarchy which takes its place.

The way the democrats of Oklahoma have rallied to the support of their governor when he was made the object of an unjust partisan assault by the republican president has brought consternation to the ranks of the Oklahoma republicans. Oklahoma democrats realize that the only vindication possible to give Governor Haskell is to increase the democratic majority in Oklahoma, and they are determined to do it. It isn't often that democrats get mad, but when they do something is going to pop. This is one time that the democrats of Oklahoma are up in arms in earnest and the avalanche of votes that will hit the republican-carpet-bag McGuire-Raymond-Husby corporation combination will be a lesson to the world in aggressive politics.

The republican papers have almost dropped their personal fight on Governor Haskell. Wonder if it's possible that they have finally tumbled to the fact that they were aiding the democratic party so long as they kept it up?

Figure Your Own Taxes.
It isn't necessary for any taxpayer to allow any one to deceive him about what his state taxes are going to be if you will go to the county clerk's office and see what the assessed value of your land or personal property is, you can tell in five minutes what your state taxes will be. The law is one: one a month will be the dollar.

That means simply that for every dollar of valuation your property will have to pay one and a fourth mill toward the support of the state government. Just take the valuation in dollars and multiply by one and a fourth and then point off three decimal points. That will give you your state taxes in dollars and cents.

It must also be remembered that your state taxes will be only a small portion of the total tax you must pay but it is the only tax with which the state officers or state administration have anything to do with levying or collecting.

This levy of one and a fourth mills is made to cover all the expense of state government, and is all the money raised by taxation for that purpose. Your other tax is for the expense of your county, township and school district government, and the levy for these added taxes is made by your board of county commissioners absolutely independent of the state officials or the state tax board.

For instance, the republican speakers and republican papers are pointing out numerous instances in Noble county where they claim the taxes on certain farms will be more than doubled, and are charging it all up to "democratic extravagance." The facts of the matter are that the farm lands of Noble county will pay less money in state taxes this year than they paid last year in territorial taxes.

A farm valued at \$5,000 would pay only \$5.25 state taxes. A farm valued at \$10,000 would pay only \$10.50 state taxes.

Where does the other \$100 which these republican papers and speakers say you are going to have to pay come from. It comes from your republican board of county commissioners in Noble county. How can the democratic state officials prevent a republican board of county commissioners from collecting an enormously high county tax? The fixing of the levy for county purposes is entirely in the hands of the county board of each county, and if your taxes are higher this year than they were last year your board of county commissioners are the men whom you should look to for an explanation, and not to the democratic state administration.

The democratic state administration has exercised the utmost caution and economy in expenditures in order to keep down the burden of taxes. They have reduced the direct tax for the support of the state government to a figure lower than that assessed to pay the expenses of a territorial government. If your taxes are higher this year than last fix the responsibility where it belongs.

IF WOMEN ONLY KNEW.

What a Heap of Happiness It Would Bring to Ada Homes.

Hard to do housework with an aching back. Brings you hours of misery at leisure or at work.

If women only knew the cause—that backache pains come from sick kidneys, 'twould save much needless woe. Doan's Kidney Pills cure sick kidneys. Ada people endorse this:

Mrs. S. M. Kyseno, living at 502 W. Main street, Ada, Okla., says: "Last summer I was suffering a great deal from a dull, heavy aching through my back and hips. I thought it was due to a cold settling on my kidneys, and was inclined to believe that it would soon disappear. The aching became more intense, however, and other symptoms of kidney trouble developed. I then decided to give Doan's Kidney Pills a trial, and procured a box at G. M. Ramsey's drug store. After taking a few doses the trouble began to disappear. I continued using the remedy faithfully, until my difficulties were entirely removed. I am glad to state I have had no return of kidney complaint since."

ADA, OKLAHOMA, TUESDAY EVENING, OCTOBER 13, 1908

NUMBER 167

SCHOOL LAND BILL.

Said to Be Unconstitutional By Able
Attorneys.

Guthrie, Ok., Oct. 12.—That the initiated school land bill, to be voted upon on Nov. 3, and providing for the sale of the school lands under rules and regulations incorporated in

the bill, is in direct violation of the enabling act, also of the state constitution, is the contention now being made by several attorneys, and they cite a decision of the Nebraska supreme court in support of their declaration.

It is shown that the enabling act, and likewise the state constitution, in conformity with the enabling act, provides that the school lands, if sold, shall be sold under rules and regulations prescribed by the legislature. This is shown in Sec. 4, Art. 31, of the constitution, as follows:

"All public lands set apart to the state by congress for charitable, penal, educational and public building purposes, and all lands taken in lieu thereof, may be sold by the state, under such rules and regulations as the legislature may prescribe in conformity with the regulations of the enabling act."

It is held therefore, that the rules and regulations provided in the initiated school land bill for the sale of the lands are of no weight or legality whatever, even though the bill is approved by a vote of the people, because they are in direct violation of the enabling act, which says specifically that the rules governing the sale of the lands must be prescribed by the legislature. The claim is made, therefore, that if the people approve the initiated bill by giving it a majority of all the votes cast in Oklahoma at the general election on Nov. 3, it will have no further weight than that the people approve the land's sale and that the legislature which convenes in January must prescribe the rules and regulations under which the sale is made.

THE FURNITURE FACTORY

Leading Business Men Confer With
Northern Factory Promoters.

About fifty business men met Messrs. Johnson and Christensen of Grand Rapids, Mich., at the club rooms last evening. These gentlemen talked frankly concerning their proposed enterprise, and made a proposition to build a furniture factory incorporated for \$600,000.00, 25 per cent paid up, and guarantee its completion within eighteen months. The city to deed the concern 200 acres of land adjoining the town to be used for the factory building site, and resident lots, and take \$80,000 stock on the bases mentioned above, which is equivalent to \$20,000. Upon

motion the president appointed the executive committee of the 25000 club to meet the promoters this morning and take up the matter more fully.

This morning members of the committee, accompanied the gentlemen to the plot of land lying west of the cement plant, and submitted same for their consideration, and it is rumored that this satisfies them. The committee has an engagement for another meeting this afternoon which cannot be reported in this issue, therefore a definite decision cannot be reported in this issue of the News.

ROOSEVELT'S GUESS.

The President Is Optimistic As to
Out Come.

Washington, Oct. 12.—Just stick a pin right here and see how things come out election night. President Roosevelt believes that Taft and Sherman will have about 306 electoral votes. He realizes that it has been a fight with a great doubt created, but he is convinced that things are going well with the republicans, and with hard work he expects to see Taft beat Bryan not quite two to one, and he expects to see Gov. Hughes re-elected.

President Roosevelt has been a pretty good judge of political events. He predicted just after the last delegates to the Chicago convention were elected that Taft would have about 700 delegates. He had 702.

The president, it is understood, claims for Taft first the States regarded as reasonably sure republican, with 138 electoral votes. Then he claims all the states classed as doubtful with republican leanings, New York, Idaho, Kansas and Wisconsin, with 65 electoral votes. He also claims Nebraska and Indiana, and, while he regards these states as close, he believes they will both cast their electoral votes for Taft.

The president, it is said, also regards Colorado and Maryland as affording a good chance to the republicans, but these states are not included in the claim he is making to his friends.

Scared in Ohio.

Cincinnati, Ohio, Oct. 12.—During the next three weeks there is to be a desperate struggle for the twenty-one electoral votes of Ohio. The significance of Mr. Taft's present tour of the state is that the republican managers have discovered Ohio is not as "safe" as they had supposed it was. They now realize that there is some little danger—no one can say just how great it is—that Taft's home state may go for Bryan. The chief trouble is with the labor vote. The present tendency of the National campaign is shifting away from its earlier status. Then the danger was supposed to be in the west. Now the danger is that the farmers are with the republican party as usual, but that a serious defection exists among the ranks of union labor and wage earners in general. This defection exists all over the country. There are reasons for believing that it is as bad here in Ohio as anywhere else, and even worse than in some states.

TO ACCOMPANY THE GOVERNOR.

Big Delegation to Attend Dallas Fair
With Haskell.

Guthrie, Ok., Oct. 12.—Plans are being made for a large delegation of Oklahoma people to accompany Gov. Haskell to Dallas, where he will make a speech at the Texas State Fair on Oct. 20. It is intended to make the trip by special train, leaving Guthrie on the morning of the 19th, and adding delegations at Oklahoma City, Pauls Valley, Purcell,

Ardmore, Sulphur, Wynnewood and Marietta. Speeches are scheduled for Gainesville and Fort Worth. Under this arrangement the party will arrive in Dallas late Monday night, spend Tuesday there and return to Oklahoma Wednesday. The train will consist of three sleepers, chair and baggage car.

The governor will be accompanied by his personal military staff, the First Regiment Band and all state officers.

Graves Leeper of Oklahoma City was here today urging completion of arrangements for the trip, which he said, would be of more than temporary value to Oklahoma.

"The governor would be talking to the mothers and fathers, sisters and brothers of thousands of Oklahoma citizens," said Mr. Leeper, "and the ex-Texans in this state could send messages of cordial greetings to the home folks through the governor."

Gov. Haskell received invitations today to make speeches at Paris, Tex., and Minden, near Shreveport, La. He telegraphed both places that definite answers could not be given until the first of next week. It may be that the tour can be extended to those places.

Miss Ewing's First Evening.

On Monday night the Airdome was comfortably filled with Ada folk, who saw Miss Ewing's Company render in a very creditable manner, "In the Shadow of the Czar."

Miss Ewing carried the heavier part and demonstrated her talent in no uncertain manner. Her associates are above the average of those who frequent towns this size and those present last night demonstrated their approval by frequent and liberal applause.

The Airdome has now a top to it and delicate people, especially bald-headed men need not fear the falling dews. Manager Parks is making strenuous efforts to make this show resort comfortable and in another few hours it seems that he will have succeeded.

The Ewing company will put on, "Slaves of the Orient," a sensational comedy drama for this evening.

TWO CENT FARE.
Before the admission of Oklahoma into the Union, three cents a mile was the minimum passenger fare on all railroads operating in the state. Under the Oklahoma constitution, written by 98 democrats, twelve republicans and one independent, two cents a mile is the maximum rate which any railroad is allowed to charge, unless the management can prove, to the satisfaction of the corporation commission that a higher rate is necessary in order that the road may be operated at a profit. With the exception of one or two branch lines, the two-cent fare is in force throughout the state.

What this provision alone saves to the people of Oklahoma in a single year is hard to estimate, but it will undoubtedly amount to more than all the taxes collected to support the state government for a year.

Oklahoma has a population of 1,500,000 human souls. It is fair to presume that at least one out of every three of our population rides on a railroad train at least once each year. If 500,000 Oklahomans should each travel 200 miles each year on the railroads of the state, it would represent a total mileage of 100,000,000 miles. The two-cent fare law saves the traveling public one cent on each mile traveled, so that on this low estimate, it would show a saving of \$1,000,000 in actual cash for one year.

Estimate the saving in your own case for yourself. Just remember that every time you travel ten miles, you have saved ten cents, thanks to Oklahoma democracy. Every time you travel a hundred miles, give the democratic party credit for saving you one dollar, and remember at the same time that, thanks to other rulings of a democratic corporation commission, the cars are kept cleaner and the service is better than it ever was under republican territorial rule. Remember also, that, thanks to an act passed by the unanimous vote of the democrats in the first state legislature, there are separate coaches and waiting rooms provided for negroes on all railroads within the state.

That the democratic party in Oklahoma deserves all the credit for this saving cannot be denied. For eighteen years the republican party had control of affairs in Oklahoma and Indian Territory. With the exception of a single legislature they controlled every session of the law making body of Oklahoma. During the entire eighteen years they had a majority in the national congress which made all the laws for Indian Territory. There was not a year in all that time that the republican congress could not have compelled the railroads of Indian Territory to carry passengers for two cents per mile. There was not a session of the republican legislature of Oklahoma that could not have given the people of that territory the same relief. The republican party failed utterly to even attempt such relief for eighteen years. The democratic party gave the people the two-cent fare the minute the constitution went into effect.

Talking Too Much.
Once upon a time Oklahoma had a territorial governor who had a son who talked too much. Now it appears that the United States has a president who has a son-in-law who talks too much. Either Theodore Roosevelt and his entire crowd of advisers have gone politically mad or Nick Longworth needs a bad half hour with his big stick father-in-law out in the woodshed. In a speech the other day Nick triumphantly declared that father-in-law Teddy meant to keep the presidency of these United States permanently in the family. "We'll elect Taft for four years and then for four years more, and after that we will re-elect Theodore Roosevelt for another eight years" boastfully declared son-in-law Nock. Is Nicholas batty or has the whole presidential political family gone bughouse? It's a little too early in the history of the American republic to declare for a dynasty and arrange the succession of the presidency for a matter of sixteen years in the future. Time will prove whether Roosevelt is responsible for his son-in-law's speech. If he isn't he will have to deny responsibility. If he leaves that speech unchallenged it brands him before the American public as a man who aspires, in the year of our Lord, 1908, to subvert the principles of our American government and assume the role of dictator in the monarchy which takes its place.

The way the democrats of Oklahoma have rallied to the support of their governor when he was made the object of an unjust partisan assault by the republican president has brought consternation to the ranks of the Oklahoma republicans. Oklahoma democrats realize that the only vindication possible to give Governor Haskell is to increase the democratic majority in Oklahoma, and they are determined to do it. It isn't often that democrats get mad, but when they do something is going to pop. This is one time that the democrats of Oklahoma are up in arms in earnest and the avalanche of votes that will hit the republican-carpet-bag McGuire-Raymond-Husby corporation combination will be a lesson to the world in aggressive politics.

The republican papers have almost dropped their personal fight on Governor Haskell. Wonder if it's possible that they have finally tumbled to the fact that they were adding the democratic party so long as they kept it up?

Figure Your Own Taxes.
It isn't necessary for any taxpayer to allow any one to deceive him about what his state taxes are going to be if you will go to the county clerk's office and see what the assessed value of your property is. You can tell in that office what your state taxes will be. The law is one, but a rough mill is the dollar.

That means simply that for every dollar of valuation your property will have to pay one and a fourth mill toward the support of the state government. Just take the valuation in dollars and multiply by one and a fourth and then point off three decimal points. That will give you your state taxes in dollars and cents.

It must also be remembered that your state taxes will be only a small portion of the total tax you must pay but it is the only tax with which the state officers or state administration have anything to do with levying or collecting.

This levy of one and a fourth mills is made to cover all the expense of state government, and is all the money raised by taxation for that purpose. Your other tax is for the expense of your county, township and school district government, and the levy for these added taxes is made by your board of county commissioners absolutely independent of the state officials or the state tax board.

For instance, the republican speakers and republican papers are pointing out numerous instances in Noble county where they claim the taxes on certain farms will be more than doubled, and are charging it all up to "democratic extravagance." The facts of the matter are that the farm lands of Noble county will pay less money in state taxes this year than they paid last year in territorial taxes.

A farm valued at \$5,000 would pay only \$5.25 state taxes. A farm valued at \$10,000 would pay only \$10.50 state taxes.

Where does the other \$100 which these republican papers and speakers say you are going to have to pay come from. It comes from your republican board of county commissioners in Noble county. How can the democratic state officials prevent a republican board of county commissioners from collecting an enormously high county tax? The fixing of the levy for county purposes is entirely in the hands of the county board of each county, and if your taxes are higher this year than they were last year your board of county commissioners are the men whom you should look to for an explanation, and not to the democratic state administration.

The democratic state administration has exercised the utmost caution and economy in expenditures in order to keep down the burden of taxes. They have reduced the direct tax for the support of the state government to a figure lower than that assessed to pay the expenses of a territorial government. If your taxes are higher this year than last fix the responsibility where it belongs.

Stomach troubles would more quickly disappear if the idea of treating the cause, rather than the effect, would come into practice. A tiny, inside, hidden nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the heart, and one to the kidneys. When these "inside nerves" fail, then the organs must falter. Dr. Shoop's Restorative is directed specifically to these failing nerves. Within 58 hours after starting the Restorative treatment patients say they realize a gain. Sold by G. M. Ramsey. 156-1mo

IF WOMEN ONLY KNEW.

What a Heap of Happiness It Would Bring to Ada Homes.

Hard to do housework with an aching back. Brings you hours of misery at leisure or at work.

If women only knew the cause—that backache pains come from sick kidneys, 'twould save much needless woe. Doan's Kidney Pills cure sick kidneys. Ada people endorse this:

Mrs. S. M. Kascian, living at 502 W. Main street, Ada, Okla., says: "Last summer I was suffering a great deal from a dull, heavy aching through my back and hips. I thought it was due to a cold settling on my kidneys, and was inclined to believe that it would soon disappear. The aching became more intense, however, and other symptoms of kidney trouble developed. I then decided to give Doan's Kidney Pills a trial, and procured a box at G. M. Ramsey's drug store. After taking a few doses the trouble began to disappear. I continued using the remedy faithfully, until my difficulties were entirely removed. I am glad to state I have had no return of kidney complaint since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
